### **APPOINTMENTS/EMPLOYMENT**

2002 – 2009 Assistant Professor  
Dept. of Psychology & Latin American and Latino Studies Institute (LALSI),  
Fordham University, New York, NY

2003 – 2022 Assistant Clinical Professor  
Departments of Neurology & Psychiatry, Icahn School of Medicine at Mount Sinai,  
New York, NY

2009 – 2012 Tenured Associate Professor  
Dept. of Psychology & LALSI, Fordham University, New York, NY

2012 – Present Tenured Professor & Co-Director of the Neuropsychology Training Doctoral  
Program, Dept. of Psychology, LALSI, and African & African American  
Studies, Fordham University, New York, NY

2012 – 2018 Director of Clinical Psychology Doctoral Program (APA-Accredited  
Program)  
Department of Psychology, Fordham University, New York, NY

2019 – Present Associate Member, Future of Aging Research Seminar, Columbia University, New  
York, NY

2023 – Present Professor [Part-Time]  
Department of Neurology, Icahn School of Medicine at Mount Sinai, New York, NY

### **GAPS IN EMPLOYMENT**

None

### **EDUCATION**

1992 Bachelor of Arts, California Polytechnic University, Pomona  
Major: Psychology; Honors: Cum Laude

1994 Master of Arts, Pepperdine University  
Major: Clinical Psychology (APA-Accredited Program)  
Specialization: Marriage, Family, & Child Therapy; Advisor: Dr. D. Lowe

2000 Doctor of Philosophy, University of Nebraska  
Major: Clinical Psychology (APA-Accredited Program); Minor: Statistics  
Concentrations: Neuropsychology and Adult Psychopathology  
Dissertation: A biosystemic model of coping in schizophrenia  
Advisor: W. D. Spaulding, Ph.D.

2000 Clinical Psychology Resident, Department of Psychiatry & Behavioral Sciences,  
University of Washington School of Medicine (APA-Accredited Program)  
Concentration: Neuropsychology Specialty Track  
Supervisors: B. Townes, Ph.D., ABPP-CN, -CP & K. Schmaling, Ph.D., ABPP-CP

2002 Neuropsychology Postdoctoral Fellow, Department of Psychiatry, University of  
California, San Diego School of Medicine – HIV Neurobehavioral Research Center  
Supervisors: R. Heaton, Ph.D., ABPP-CN, T. Marcotte, Ph.D., M. Cherner, Ph.D.

## **CERTIFICATION**

- 2012 – Diplomate, Board Certified in Clinical Neuropsychology, American Board of Professional Psychology
- 2012 – Fellow, American Psychological Association - Clinical Neuropsychology (Div. 40)
- 2012 – Fellow, National Academy of Neuropsychology
- 2019 – Fellow, Hispanic Neuropsychological Society

## **LICENSURE**

- 2002 California State Psychology License  
Number: PSY18028 (Inactive); Date of issue: 03/14/2002
- 2003 New York State Psychology License  
Number: 017469; Date of issue: 12/14/2007

## **HONORS/AWARDS**

### **Professional**

- 1992 – 1994 Graduate School of Education & Psychology Fellowship, Pepperdine University
- 1993 – 1994 National Hispanic Scholarship Award
- 1996 – 1999 Minority Fellowship Award, University of Nebraska
- 1997 – 1999 Warden Research and Travel Award, University of Nebraska
- 1997 Outstanding Student Poster Award (Primary Author), Association for the Advancement of Behavior Therapy
- 1997 Minority Fellowship - Honorable Mention, American Psychological Association (APA)
- 2000 Visiting Fellowship Award, Harvard University/Massachusetts General Hospital & APA Advanced Training Institute in Functional Magnetic Resonance Imaging
- 2000 Student Poster Award (Primary Author), National Academy of Neuropsychology
- 2002 – 2004 NIH Faculty Loan Repayment Program Award
- 2004 – 2011 National Center on Minority Health & Health Disparities Scholar Award, National Institutes of Health
- 2005 Professor of the Year, Fordham University
- 2006 Faculty Fellowship, Fordham University
- 2007 – 2009 Faculty Scholar, Center for Multicultural and Community Affairs (CMCA), Icahn School of Medicine at Mount Sinai
  - Formal CBPR training, community engagement, Mentorship, professional development
- 2007 National Institute of Drug Abuse (NIDA)/APA Research Development Award for HIV, Substance Use, & Minority Communities
- 2007 – 2009 Early Career Development Award (\$25,000), Northeast Consortium for Minority Faculty Development
- 2008 Distinguished Alumna Award for Psychology, Pepperdine University - Graduate School of Education & Psychology
- 2010 Mellon Challenge Grant (\$4,000), Fordham University
- 2010 Early Career Service Award, National Academy of Neuropsychology
- 2011 Women in Neuropsychology (WIN) - WINners Box Honor, APA (Division 40, SCN)
- 2011 Early Career Award, American Psychological Association (APA; Society Clinical Neuropsychology Division)
- 2019 Hispanic Health Leadership Award, National Hispanic Medical Association
- 2020 Martha Bernal Award for the Advancement of Diversity Training and Education in Clinical Psychology, Council of University Directors of Clinical Psychology (CUDCP)
- 2021 Black Luminaries in Neuropsychology, Society for Black Neuropsychology
- 2022 Commencement Speaker, Graduate School of Arts & Sciences, Fordham University

2008 Mentor, GOALS (Greater Opportunities for Advancing Leadership & Science) for Girls Youth Leadership Conference, Intrepid Sea & Space Museum  
2009 – 2018 Pro Bono Neuropsychological Services, Neuropsychological Associates of New York  
2010 – 2011 Member, Care Coordination Committee, Manhattan HIV Care Network  
2011 Pro Bono Consultant, God's Love We Deliver, New York, NY  
2011 Co-Coordinator: 3rd Annual HIV Outreach Conference (~200 attendees); In Partnership with SelfHelp Community Services (Fordham – Rose Hill)  
2012 – Board of Directors (At-Large Member: 2012-2013; Secretary: 2013-2020; Treasurer: 2020-Present), Harlem Community & Academic Partnership  
2013 – 2020 Board of Directors - Secretary, Harlem Community & Academic Partnership  
2014 – 2019 Advisory Board Member, SMART University (NYC CBO for HIV+ women)

- 2019 – Older Adults Subcommittee Member, East Harlem Community Health Committee
- 2021 - Founding President, CPN Block Association

## **RESEARCH PROFILE**

The overarching aim of my work is to characterize and understand brain health inequities in cognitive aging to inform culturally responsive, evidence-based interventions and policies geared towards improving brain health outcomes among minoritized, underrepresented populations (URPs; e.g., Latinx, Black/African-American, Asian, American Indian; low resource and rural settings). My research primarily centers on three lines of inquiry, including: 1) genetic, cerebrovascular, behavioral, and sociocultural risk and modifiable resilience factors for cognitive and functional impairment and dementia in middle-aged and older adults from URPs (e.g. R01AG065110; 2U19AG024904-16; K23MH079718); 2) advanced approaches for early detection of cognitive impairment in middle-aged and older adults from URPs (R56AG075744; R01AG066471); and 3) ways to increase the inclusion and engagement of URPs in cognitive aging and Alzheimer's Disease and Related Dementias (AD/ADRD) research and the AD/ADRD workforce (2U19AG024904-16; R13AG071313; Genentech G- 89294; U19AG078109-01; SC3GM141996). I theoretically contextualize my work within a Biopsychosociocultural Framework, which I first published in 2008 (Rivera Mindt et al., 2008; PMC2696232), with an emphasis on sociocultural determinants of brain health.

My current funding as a PI/MPI totals ~\$200 million, and is supported by the NIH/NIA, the Alzheimer's Association, and Genentech. I have built and sustained a culturally-informed, productive, and novel independent program of research through a team science approach and by successfully competing for extramural funding for 20+ years. Since 2019, I have also developed new, highly fruitful collaborations with leading scientists from all over the country. Moving forward, I am excited to further build my research program and portfolio within the field to advance healthy and equitable cognitive aging for all people; accelerate the representation of diverse populations in aging and AD/ADRD research; train the next generation of scientists (particularly from URPs); and inform public health policy.

## **CLINICAL PROFILE**

I have developed a unique clinical profile, which complements my research interest in brain health equity. As a bilingual/bicultural neuropsychologist, I believe that I am the first Afro-Latinx/Indigenous woman to earn board certification in Clinical Neuropsychology from the American Board of Professional Psychology (ABPP). My unique clinical expertise includes cultural neuropsychology and Spanish language neuropsychological evaluation. Over the last 20 years, I have provided numerous pro bono neuropsychological screenings and evaluations through my close affiliations with community-based organizations in East Harlem (a.k.a., Spanish Harlem or El Barrio). Moreover, although I am no longer practicing clinically due to my intensive research commitments, I have continued to provide clinical supervision to dozens of clinical neuropsychology and psychology students within Fordham University's Clinical Psychology Doctoral Program over the last 20 years.

## **OVERALL IMPACT**

I am nationally and internationally recognized for my research accomplishments and expertise in brain health equity, cultural neuropsychology, and community-engaged research (CER) methods. My research and leadership have led to fundamental changes in my field of neuropsychology through the evidence base that I have helped to create and my leadership in helping to translate this evidence into a broader understanding of the critical roles of sociocultural and structural factors in brain-behavior relationships in neuropsychological training, research, and practice with underrepresented populations. For instance, the CER methods that I have refined over the past ~15 years to improve the internal and external validity of cognitive aging/dementia research are now transforming the field AD/ADRD research through large,

multi-site studies, such as the Alzheimer's Disease Neuroimaging Initiative, ADNI (2U19AG024904; a ~60 site study across the US and Canada), which sets the field's standard for AD biomarker validation and AD clinical trials, and has enabled dramatic changes to trial design, including early intervention strategies.

Regarding my scholarly impact, I have established a strong and consistent record of scholarly activity. I have 110+ peer-reviewed articles (39 articles as first or senior author and 64 with trainee co-authors), as well as 11 book chapters and related publications. My work has consistently appeared in high caliber journals within my field (e.g., *The Clinical Neuropsychologist*, *Psychological Assessment*, *Neuropsychology*). I have also given 100+ invited, extramural presentations, including 11 Keynote addresses and the 2022 Commencement Address for Fordham University's Graduate School of Arts and Sciences.

Regarding leadership/service, I approach every leadership opportunity with authenticity, cultural humility, and a big vision for what is possible when we come together with common purpose to create meaningful, systemic, and lasting change. For instance, during my tenure as President of the Hispanic Neuropsychological Society (2016-2020), not only did I advance health policy, research, and training opportunities for Latinx populations, but I also helped to start/support new, health-equity focused neuropsychology organizations that are now flourishing, including the Asian Neuropsychological Association and the Society for Black Neuropsychology. I am also a founding member (2000–2002) of APA's Division 40 Women in Neuropsychology (WIN) group (N= 1,000+), which actively supports and Mentors women and gender non-binary individuals in neuropsychology and has been a transformational force for helping women ascend into leadership positions in neuropsychology. Lastly, I was honored to serve as Chair for the NIH/NIA AGCD-4 Study Section (2021-2022). Overall, I have served in 13 national leadership positions and believe that this work has been highly impactful to advance brain health equity and inclusion across the field.

In terms of my teaching/Mentoring impact, please see my statements below in the Diversity and Inclusion Impact, Education and Mentoring Profile sections.

In sum, I have brought a unique perspective and great energy to all aspects of my work. I have advanced our understanding and promotion of healthy brain/cognitive aging for all people and I am helping to diversify a workforce that must be more culturally competent and better prepared to study and care for our rapidly aging and diversifying US population. To that end, I am the recipient of several awards for my research, teaching, and contributions to the field, including the 2011 Early Career Award from the American Psychological Association (Society Clinical Neuropsychology, Division 40), 2019 Hispanic Health Leadership Award from the National Hispanic Medical Association, and 2020 Martha Bernal Award for the Advancement of Diversity Training and Education in Clinical Psychology from the Council of University Directors of Clinical Psychology. I am also a Fellow of the American Psychological Association (Division 40, Society for Clinical Neuropsychology), National Academy of Neuropsychology, and Hispanic Neuropsychological Society.

## **DIVERSITY AND INCLUSION IMPACT**

My life's work is to understand and promote healthy brain- and cognitive aging for all people across the adult lifespan, including minoritized, underrepresented populations. Thus, DEI spans all aspects of my work:

- **Research:** Community-engaged research (CER) is an evidence-based approach to increase the inclusion/engagement of underrepresented population in dementia research. I am the only neuroscientist that I am aware of in the county who is also a formally-trained in CER. I gratefully received this training through Mount Sinai's Center for Multicultural and Community Affairs' (CMCA) Faculty Scholar Program (2007-2009) under the incredible Mentorship of Ann-Gel Palermo, DPH (now Senior Assoc. Dean for DEI). For the past 15+ years, I have utilized CER methods to sustain equitable, trustworthy research partnerships with community-based organizations (CBOs) in Harlem. My studies typically enroll ~50+% participants from

underrepresented populations (e.g., Black, Latinx), and virtually all of my grants focus on brain health inequities and utilize CER methods, e.g., SALUD (R01AG065110), BEYONDD (R56AG075744), ADNI4 Engagement Core (2U19AG024904-16).

- **Education:** At Fordham University, I teach an undergraduate Multicultural Psychology course and a DEI-integrated Neuropsychology graduate course. At Mount Sinai, I have provided guest lectures for one graduate course: Culture, Illness and Community Health Outcomes (CLR207; 2008 & 2011-2017) and numerous seminars, didactics and lectures across ISMMS on topics of brain health equity, cultural neuropsychology, and cultural competence (see Intramural Presentations section). Also, across the span of my 20+ year career, my trainees (N=50+) include 50% persons from ethnoculturally/linguistically diverse populations and 50% women and non-gender conforming persons.
- **Leadership/Service:**
  - 2000-2002 Founding Member of the Women in Neuropsychology Steering Committee, American Psychological Association (APA) Division 40 (Society for Clinical Neuropsychology)
  - 2003 – 2006 Co-Chair, Ethnic Minority Affairs Steering Committee, APA Division 40
  - 2016 – 2017 APA Leadership Institute for Women in Psychology Fellow
  - 2016 – 2017 Co-Chair, HNS Conference Program Committee
  - 2016 – 2017 Co-Chair, Education and Training Subcommittee of the Cultural Neuropsychology National Summit Meeting
  - 2016 – 2017 Co-Chair, Cultural Neuropsychology National Summit 2017 Meeting
  - 2016 – 2020 President-Elect \* President \* Past-President (Elected Position), Hispanic Neuropsychological Society (HNS)
  - 2018 – Co-Founder & Co-Chair, Wisdom Workgroup for Indigenous Neuropsychology: A Global Strategy (Wisdom WINGS)
  - 2022 – 2023 Content Expert, Minnesota 2022 Conference to Update Education and Training Guidelines in Clinical Neuropsychology, Equity, Justice, and Inclusion Workgroup

## **MENTORING PROFILE**

I am deeply dedicated to Mentoring and training the next generation of scientists to promote healthy, equitable cognitive aging. I have formally Mentored 50+ trainees over the course of my career, and have provided emergent, supportive Mentoring to dozens more trainees from diverse backgrounds from across the country in need of culturally-informed Mentorship and support. I have Mentored 11 NIH-funded training awards, 1 Alzheimer’s Association training award, 1 American Academy of Neurology Transcends Award, 27 dissertations, 15 Masters theses, and 15 honors theses. Moreover, 64 of my 101 peer-reviewed publications have been with students/trainees, as well as numerous scientific presentations at international and national conferences. The majority of my trainees have been women and persons from diverse backgrounds. Virtually all of our work together is focused on research and care for minorized, underrepresented populations. My stellar record of teaching, Mentorship, and training has been recognized with the 2005 Professor of the Year Award from Fordham University and the 2020 Martha Bernal Award for the Advancement of Diversity Training and Education in Clinical Psychology from the Council of University Directors of Clinical Psychology.
